

Measuring Posts

Post Cap Measuring

◆ Measure the largest diameter of **ALL** posts & round **UP** or **DOWN** to the nearest 1/4". You may need to remove a small amount of material from the top outside edge of your post to achieve a nice fit. On those irregular shaped posts, just give us a call.

Jack-Wrap Measuring

◆ Simply measure the post's diameter or circumference. Allow an additional 2" of Copper to attach to the post.

General Notes

- ◆ All Copper is provided in the natural state & will develop a beautiful patina over time. The Copper does go through a darkening and uneven color stage in the process.
- ◆ Minor mars, imperfections and/or color variations are characteristics of Copper & virtually disappear as Copper ages & develops it's patina.
- ◆ Due to the custom nature of our products, Nortek is **NOT** responsible for improper measurements provided to us.
- ◆ All Copper products are handmade to order and will ship in approximately 2-4 weeks.
- ◆ The Levelers are in stock and usually ship within 24-48 hours.
- ◆ All sales are final on custom orders.
